\$15.8M

TOTAL COST SAVINGS OVER 3-YEAR PERIOD

Using industry averages and prospective lender's origination volumes and cost data, the above information showcases year-over-year benefits of adopting Tavant V ∞ LOX over a 3-year period. The above data is baselined for a financial institution funding 10,000 loans per year, 60% pull-through, average cycle-time of 50 days to close and \$8,611 in origination costs.

See how we've helped transform the industry.

ENGINEERING EXPERTISE

Chief Digital Officer and CIO at a Top 30 lender:

"Tavant is solving our key challenges with their deep mortgage expertise and a variety of products on a platform that is designed specifically to help us in the mortgage industry".

DEEP DOMAIN KNOWLEDGE

Mortgage Technology Executive at a Top 10 Bank:

"One thing about Tavant that is really unique is taking the mortgage knowledge that goes back years and years and merging that with what is happening in terms of cutting-edge technology. Tavant has taught us a lot about Machine Learning including putting up like a Data Science Conference at one point".

FEATURE-RICH PRODUCT SUITE

Co-founder and CEO of a FinTech Lender:

"Tavant VELOX suite of products will provide the flexibility, scale and a streamlined customer experience that is essential for our business".
